

# THE NEXT GENERATION ICE BATH

The all-in-one solution chiller

Cooling  
down to 3°C

Heating  
up to 42°C

Water  
filtration

Large-capacity  
water tub

Optimized  
thermal insulation

# AWAKEN THE POTENTIAL IN YOU

An **«ice bath»** is a recovery technique that involves immersing the body in water below 15°C to harness the body's natural healing capacities.

Sport | Rehabilitation | Wellness | Rituals

## BENEFITS FOR BODY AND MIND

Reduced stress and anxiety  
and improve your sleep

Mental strengthening

Reduced muscle and joint  
pain, inflammation and  
hypertension

Faster revitalization  
and recovery

and immune system stimulation

# ICE BATH

## OUR CONCEPT

We offer you a complete range of Ice Bath 2.0 that will make the use of ice cubes obsolete.

BATH

FURNITURE  
5 MODULES

REVERSIBLE  
CHILLER  
FROM 3°C TO 42°C

### THE BATH & THE CHILLER 3 kW | 5 kW

- ✓ Optimal insulation
- ✓ Moves easily
- ✓ Savings on ice cubes
- ✓ 3°C to 42°C : relax or invigorate

### THE FURNITURE 5 modules

- ✓ Storage available
- ✓ Warmer design

#### The end of ice cubes

No more ice waste and constant water renewal. The Netspa Ice allows you to maintain and filter cold water up to 3°C at a low cost.

#### An individual or collective concept

With its large capacity, you can enjoy a bath alone or with others after your workouts or sports activities.

#### Practical furniture

You can easily store your sports accessories, or towels that you will use when you get out of your ice bath.

**Control temperature from 3 to 42°C**

You can perfectly control your sessions according to the desired temperature. A detail that is important for precise training in complete safety.

**OPTIONAL SURROUNDING FURNITURE**

*Comfort bench and entry step*

*Storage shelves*

*Filter block protector*

*Low storage*
